JAMAL FERGUSON

SOFTWARE DEVELOPER | FULL-STACK & FRONTEND ENGINEERING

Penngrove, CA • (954) 907-8910 • jamal.ferguson1990@gmail.com
LinkedIn | **Portfolio** | **GitHub**

PROFILE

Full-stack developer experienced with React, Next.js, TypeScript, Node.js, AI integrations, and REST APIs. Builds responsive, user-focused applications with reusable components, reliable backend integrations, and performance-conscious design.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frontend: React, Next.js, Tailwind CSS, Redux, Zustand, Shadcn/ui, GSAP
Backend & Data: Node.js, Express.js, Firebase, Firestore, Supabase, REST APIs
Tools & Testing: Git, GitHub, Vercel, Netlify, Figma, Jest, React Testing Library, Jira, Stripe
Strengths: Collaboration, Communication, Problem-solving, Mentorship, Adaptability

PROFESSIONAL EXPERIENCE

Frontend Engineer — Skinstric AI | *Remote | Oct 2026 – Nov 2026*

- Built an AI-powered skin analysis experience with Next.js and OpenAI Vision API, including image processing and personalized skincare recommendations.
- Created responsive interfaces using Tailwind CSS, GSAP animations, and modular UI components for consistent, interactive experiences.
- Optimized rendering with Next.js Server Components, achieving reported analysis times under 2 seconds.

Frontend Developer & Peer Mentor — Frontend Simplified | *Remote | Jul 2026 – Oct 2026*

- Selected as peer mentor after ranking in the top 5% of the cohort; guided 20+ developers through React/Next.js debugging and code reviews.
- Led frontend optimization workshops that helped students improve portfolio load times by an average of 50%.
- Developed Shadcn/ui components and TypeScript learning resources to strengthen code quality and development speed.

Software Developer Intern — NFT Virtual Internship | *Remote | 3-month program*

- Built 15+ reusable React components for an NFT platform using JavaScript, Redux, and Material UI.
- Integrated REST APIs, Firebase Authentication, and Firestore for asset retrieval, account management, and responsive UX.
- Collaborated on a three-person Agile team, completing 40+ Jira tickets and optimizing backend tasks with Firebase Cloud Functions.

PROJECTS

Disney+ Experience Clone | Live Site | GitHub
Built a responsive streaming-style interface with movie search, dynamic routes, API data, and interactive loading states.

RUFF Pepper Shrimp | Live Site | GitHub
Created a production-ready Jamaican family-business website with product presentation, brand storytelling, and direct text-to-order functionality.

EDUCATION

Full Stack Engineering Institute | Full-Stack Engineering Certificate | Jun 2023 – Jan 2024 | GPA: 3.9
